Loom Band It: 60 Rubberband Projects For The Budding Loomineer

Synopsis

Crafting for kids is back in a big way, but don't take our word for it. Just check the arms, fingers, and even feet of kids around the nation. They're all wearing super funky accessories made of multicolored rubber bands! Woven by hand, or with a small inexpensive loom, rubber band crafts are the latest craze, inspiring both boys and girls to put down their digital devices and start looming unique items to wear, share, and sell. *Loom Band It* offers 60 unique rubber band projects, from bracelets and charms to cell phone sleeves and sandals. The authors also give readers an introduction to the world of loomineering (as they refers to the popular craft), basic techniques for using the loom, and instructions for a variety of patterns like fishtail, hexafish, ladder, and double braid. Kids and grownups who are new to looming, and those who would like to expand their projects, will find tons of inspiration and instruction in this book.

Book Information

Paperback: 128 pages

Customer Reviews

Kat Roberts is a designer, author, avid crafter, and upcycler based in Brooklyn, NY. Her work has been featured in several crafting books, and she leads various craft and fashion workshops. Tessa Sillars-Powell is a professional crafter. She graduated from the Royal Welsh College of Music and Drama, has worked extensively as a designer, prop, and costume maker, and now works as a freelance crafter and consultant in London.

Not good, should have listened to the other reviews, needs more photos to explain instructions.

Thought that I would be able to understand instructions, being 40 years old, nope. You tube video did it easily.

Bought this book for the 9 1/2 year old gran daughter! On a car trip, she shared with the 7 1/2 year old and it became a must have item for the younger child. Only problem is that the book caused up so much enthusiasm that second looms need to be bought so the more complicated patterns could be worked.

My children had me making things from this book and while it was relatively straight forward, there were a number of times I had to start over. This book was not for the true beginner. I still like it and would recommend it but keep in mind you will need patience

Bought for my 10 year old stepson. He did like it but he confused him. He read it as well as youtubed it how to make the items so he could understand it better. Once he did understand though he was able to keep doing it.

Great book with lots of different designs. I didn't give it 5 starts because some of the designs are quite confusing and complex but I think for older kids and a more experienced loomer they could figure them out. This has a lot of very simple designs too.

I bought this book for my daughter's 9th birthday, and I have been astounded by the things she has created. The perfect gift for the creative child.

My 7 year old daughter is loving this book, she has made several things out of it. It is really easy for her to understand the steps.

My daughter went crazy making different kinds of loom bands after getting this book.
