Silver Platter - Simple Elegance: Effortless Recipes With Sophisticated Results

Synopsis

Daniella Silver, author of the bestselling *The Silver Platter: Simple to Spectacular*, once again teams up with Norene Gilletz - the acclaimed "matriarch of kosher cooking" - to bring a whole new level of elegance to our tables. *Simple Elegance* offers Daniella's many devoted fans food that is as beautiful to look at as it is healthy to eat. The food is magnificent and, surprisingly, oh-so-simple to prepare. So what is the secret of "simple elegance"? Elegance - it's a way to show your care and love for those eating at your table, as you serve them beautifully presented food. Simplicity is how we can survive, and thrive, in today's hurried, busy world. Put them together - as Daniella and Norene do in this ground-breaking cookbook - and you have the perfect cookbook for our homes. For our lives. And for the people we love. I absolutely love this cookbook. Excellent recipes, I use this book all the time.

lots of interesting recipes- great ideas-pictures clear and bright- use it often

The recipes I have tried were delicious!

Fantastic kosher cook book.

Great!

I just got my cookbook today and I'm already impressed. I haven't even finished reading it but I felt compelled to write how much I love it so far. I'm up to page 102 and I already found so many new favorites that I must try. I especially love the salad section as it's filled with so many original concepts. I can't wait to try the everything kale salad as it sounds so delicious! So far nothing looks too complicated and I'm really enjoying it! I definitely recommend buying this cookbook!

Sooo disappointed! I have the first silver platter and love it...was really looking forward to this but after reading it cover -to-cover I couldn't see myself making more than a handful of recipes. a lot of the recipes are so basic/simple/boring they can hardly be called "recipes". making one or two minor changes to a well-known recipe doesn't make it original or deserving of an entire page in a \$30+ cookbook! Also didn't think most of the recipes were family/kid friendly, unless your kids eat lots of quinoa and simply dressed vegetables... first time I returned a cookbook, even though I got a great deal on it...

I absolutely adore this cookbook! With recipes like pulled beef nachos, honey pistachio chicken, maple mustard London broil, potato crusted quiche, candied cauliflower, and salted chocolate ganache tart you can't go wrong! This book has all the recipes you need to make an elegant yet simple dinner that your guests will surely enjoy! Hope you and your family enjoy this cookbook as much as I do!!!
