Nursing Outcomes Classification (NOC): Measurement Of Health Outcomes, 5e

Synopsis

Promoting safe and effective nursing care, Nursing Outcomes Classification (NOC), 5th Edition standardizes the terminology and criteria needed to measure and evaluate outcomes that result from nursing interventions. Nearly 500 research-based nursing outcome labels – including 107 that are NEW to this edition – help to standardize expected patient outcomes. Specific indicators make it easier to evaluate and rate the patient in relation to outcome achievement. Written by an expert author team led by Sue Moorhead, this book is ideal for practicing nurses, students, educators, researchers, and administrators seeking to improve cost containment and patient outcomes.
