Best Sellers Rank: #40,382 in Books (See Top 100 in Books) #44 in Books > Religion & Spirituality > New Age & Spirituality > Wicca, Witchcraft & Paganism > Wicca

## Customer Reviews

I have always been fascinated by Wicca and religions that are based on older pagan beliefs. I have found that many of them address areas of spirituality that other religions do not. This is a great beginner's guide to Wicca, and will cover all of the basic beliefs, and much of the mythos. There are also a handful of spells that are suitable for the novice to practice with. If you are interested in learning to cast magic, then this book will help you get started.

I really appreciate the way this was written and the fact that it is available for free! I am just starting research into Wicca and this was a great brief overview of some key parts of Wiccan practices. It is

by no means exhaustive, but I am glad I read it before anything else. Now I know I have a strong interest, but if I didn't I would not have felt like I wasted a long time. I like that it encourages the reader to seek out further information and contains so much supportive and welcoming language.

Short, quick read but it was exactly what I was looking for. This book delivers what it promises which is a nice introduction for beginners interested in learning more about Wicca. If you're looking for in depth material, you will definitely need more. But for me, I enjoyed the book. I thought it was an easy read and quite well put together. Kudos to the author.

Good read! I enjoyed it. It's short and straight to the point with a clear understanding. Worth reading and doesn't take long.

If anything, this is way too simplified and short. On the other hand, it makes Wicca accessible for further investigation without adding the author's potential biases. Other than a lack of detail, this is a very short but balanced review of Wicca.

While the information itself is very useful, the paperback book retains the e-book formatting. Some words are not capitalized, and there are mistakes such as using the wrong "too." However, if none of that bothers you, then don't hesitate to buy this book! It's very informative and uses terms that are easy for the beginner to understand.

This book is a free and very basic book on Wicca. However, it does exactly what it says it does. It gives the reader a basic guide to what Wicca is and what it is not. While not terribly useful for someone who has studied Wicca before, it is excellent for a beginning to understanding.

Good read!! Helped me understand the basics of a wiccan. Does not go into detail about spells ect.. will help you better understand the principals and beliefs that wiccans follow. This book has made me want to research and read more.
