Melissa Michaels is the creator of The Inspired Room, voted the 2015 and 2014 Better Homes and Gardens Readers'ã ¢â ã ¢ Favorite Decorating Blog. With creative, simple ideas for decorating and organizing the home, she inspires more than half a million women each month. Melissa is also the author of the New York Times bestseller Love the Home You Have, Make Room for What You Love,ã Å and The Inspired Room coffee table book. She and her husband live in Washington, where they planted a church in 2009.

I've been following The Inspired Room blog for many years and wasn't the least bit surprised it was voted Top Home Decor blog by Better Homes & Gardens the last two years. Melissa Michaels has written NY Times bestsellers on the subject and now she's back at it with a unique move into adult

coloring books! The quality of the book is beautiful and I've purchased two to give as gifts. I hadn't ventured into adult coloring prior to now. It provides relaxation, time to turn off your mind clutter and have some fun. I've enjoyed trying out unique color schemes too. Highly recommended!

If I could draw what I want to color, it would be this coloring book. I LOVE it. My family mocks my coloring book collection because I don't always finish them, but I might buy another to color when I'm done with this one. A great mix of small objects to finish quickly and more elaborate rooms. My mom will love it, too. Oh! And my niece. And my sisters...

LOVE the idea of a grown-up coloring book - finally - just for us! Melissa Michaels' The Inspired Room will not disappoint. It's beautiful enough to grace your coffee table and is irresistible not to open! Use colored pencils, brush pens, markers, watercolors - no bleeding through the thick pages and are only one-sided. How thoughtful... GET this coloring book if you want to find a new passion! Great for putting your design and color schemes on paper, too! Buying these for gifts!

Beautiful pictures. It is also nice that the pictures are only on one side of the paper.

This book is the best coloring book In the world! I love anything that deals design and patterns! This book allows you to be your own designer of products, rooms, and accessories!

nice, but some drawings are too simple.if you like things in the house, like sofas, picture frames, etc...you will like this.

I've really gotten into adult coloring books because they are so relaxing and I love decorating! This book is the best of both worlds!

Love decorating and this is such a nice way to be creative with your own colors in  
decorating
