Katie Daisy is an artist whose work captures the essence of living with nature. She resides in Bend, Oregon.

What an amazingly beautiful book! For a book that I knew had artwork in it, I expected it to be a large shiny book with few pages. This thing is the size of a regular book, has many pages, and is
done in matte so that the glossiness doesn't distract at all from the gorgeous art. The colors make me very happy. It is so well done. Quotes, pictures, even some recipes, ideas, and instructions for living with nature. My only complaint is some of the artwork gets lost in the fold for those that span two pages. If it could somehow lay flat so we could see every bit of it, would be better. Highly recommended as soulful inspiration for nature lovers.

My field guide just arrived to me this morning and I couldn't be happier. After flipping through a few pages I already want to take the book and run into the wilderness. It gives you that extra spark needed to go get out there. The book has beauty covering every inch.

I love Katie's work - and this does not disappoint. It's one of those books like just makes me happy to pick up and look at. Excited to take some of the ideas in here and put them into action.
