Customer Reviews

Not a book, but a series of 'fill in docs' for the Star Wars RPG. No content other than this. Useful to Game Masters who'd rather not make their own character templates.

These sheets are a good starting point, now I can create characters for the game. These along with the Revised Core Rulebook will help create characters for the game. The product arrived promptly and in good condition.

Excellent quality!!

I never received them and am pretty certain my heinous mail carrier with the USPS left them outside my door...in an enclosed breezeway in a neighborhood where NO ONE leaves anything unlocked.

SO...the short of it is they were stolen by ignorant little savages in my apt building or those who were visiting :p Never got to find out if they were good at all...

I recently got a chance to take a look at these record sheets. They seemed VERY detailed and are just great. They are so easy to photocopy you will almost turn dizzy. The added bonus of the ship and droid record sheets are beautiful as well. The reason I gave it 4 stars instead of 5 is because the character sheet is located in the Core Rule Book as well. The reason I didn't give it 3 stars is because it is MUCH easier to photocopy here. I can't believe how easy it was to find the character piloting skill attribute. That's what I ALWAYS look for first, and it takes me atleast 30 seconds. When I took a glance at these sheets it didn't even take me 10 seconds. The product is great, and if your not a photocopying person, just buy 2 of them. It's a great price and a great product!

I enjoy the new version of Star Wars and play it frequently, but I made a mistake buying these sheets. An option is to instead photocopy the one given to you in the core rules ten times. If you do that, you pretty much have this supplement. There is a vehicle/starship sheet in here, but let's be honest, you don't like the vehicle/starship rules anyways, and are anxiously awaiting the update this December to see if they address it in any reasonable fashion..

These Character sheets are very crisp and have amazing detail. They are great for groups of RPGers and allow for easy photocopying. The sheets are the same in the Core Book, but this provides the Gamer the chance to make several characters and to experiment with them without having to make many copies. They are a great buy and I recommend for serious gamers to buy more than one.

The sheets for droids, starships and vehicles are nice, but 10 copies of the SAME character sheet?! C'mon!! Why do we need multiple copies if permission is given to photocopy? I think WotC could have spent a little more time on this and produced a separate character sheet for each class (like with D&D 3E).
