Customer Reviews

Good background information about Milan. Nice to use as a reference (bought as a Kindle book), but Michelin isn't the comprehensive guide it used to be. Save your old editions.

The book provided only minor additional information than the full Italian Michelin book. The added cost of this book really wasn't worth it.

If you are looking for coverage of the Lake District this is not the book you are looking for! Just a few pages for some of the lakes. Michelin should just be honest and call it just a Milan guide.
