As someone who has always struggled to grasp grammar rules, this book has been a breakthrough
for me... --.co.uk on-line review, July 2001. --This text refers to an alternate Paperback edition.

Since 1981, Bilingual Books, Inc. (Seattle) has sold millions of copies of its highly acclaimed

products. The first title published was German in 10 Minutes a Day; now the company is the leader in foreign language publishing, with more than 40 titles in 20 languages.

Really like it. Especially if I am faithful everyday doing the exercises as well as vocabulary words at the bottom. then I start thinking in the language and I talk to myself ...helps to

practice.Ã Â Â'Â•Ã Â Â'Â•Ã Â Â'Â•Ã Â Â'Â•Ã Â Â'Â

Excellent book that we use in our German class. Do not recommend getting any of the used books, however. Some people in our class have gotten them and they have notes and writing in them. (Probably should expect that). Also there are several editions of the book so you can end up with a used book that does not match up with the particular (current) edition being used by a class. If you are not intending the book for class usage, it might be okay getting the used book.

Great for learning another language. Was a gift to a friend and she loved it.

Is there an answer key to this book? I just received the book in the mail and do not see one provided. This is disappointing, as it makes it difficult to know if the questions were answered correctly, and I am learning the material properly! Otherwise, this book appears to provide what I am looking for to help learn German.

You definitely need to work on a new language for more than 10 Minutes A Day, but otherwise I highly recommend this set. It's well-considered and well-paced. We found that if we studied each lesson twice and worked on the next lesson once, all in the same day, then repeated this process the next day, we made real progress quickly. Sehr gut!Fuenf Sterne.

I purchase this book after i purchased an audio CD by a different author. I was intrigued by the title but when I got it I am not sure this is a book I would use without a supplemental audio CD from another author. I can't put my finger on exactly what it is about this book that prevents me from giving it 5 stars. It just seems like its lacking more depth to the teacher tools. I hope to pick up the language within a year so that I can start another language. I would not pick this author to teach me another language.

I bought this book 25 years ago when I got orders to Germany....now it's even better with a CD. We

are going on a Rhein River cruise next summer...

I used this book ten years ago and it helped me to learn and retain information. I ordered another one for my upcoming trip to Austria and Germany. I would recommend if you want to learn some basics.
