SOAR Study Skills; A Simple And Efficient System For Getting Better Grades In Less Time

Synopsis

The MISSING LINK is here! Join the thousands of parents, students, teachers, tutors, and schools using SOAR Study Skills, and find your undiscovered brilliance, today! The SOAR Study Skills book is in over 4,000+ schools and in 35 different countries world-wide. "Bottom line: Get the book; you won't be sorry. We've only had it for under a week, and it has already proven its worth 10 times over." - Sharmian L. White, Parent

10 Strategies Covered in SOAR Study Skills:

- Time & Task-Management
- Organizing at Home & School
- Writing Strategies
- Note-Taking Strategies
- Test-Taking Strategies
- Paper Organization
- Homework & Project Planning
- Communication Skills
- Reading Skills
- Goal-Setting

Why SOAR Study Skills? Apply the brain-friendly strategies, and... Build Confidence! Raise Test Scores in every subject area. Raise Writing Scores in a single semester. Raise GPA. Master Executive Function techniques for improved intelligence. Gain High-Speed Learning techniques that cut back study-time, as much as 50%. Achieve - better grades... in less time.

How can SOAR Study Skills guarantee all of this? It's simple, SOAR teaches you what your school does NOT... how to learn. It is the most essential, fundamental, and basic element to any education, but schools still don't address it. National and state curriculum demand heavier amounts of content. But, teachers have no time or training for teaching the vital learning strategies and "life-skills" students need!

"SOAR has been a Godsend to our family... You have no idea! My son has not lost one assignment or forgotten anything at school since I set him up with your Binder System. You really demonstrated how to simplify the organizational process and I am so grateful to have found something that finally works!" -- Paul K., Middle School Parent

Is the education system setting students up for failure? Students are learning lots of new technical knowledge. But, very few are able to juggle their new knowledge, time, and tasks all at once. Organizing papers, managing time, managing tasks, taking tests, taking notes, studying, communicating, organizing at home... these are all HUGE functions in everyday school-life. Yet, schools don't teach any of it! Students struggle in school, not because of their lack of intelligence, but because they haven't been taught how to learn!

What is the missing link in education? HOW TO LEARN! Get your child ahead in school by giving them the proper skills needed to be a successful student and more importantly, a successful learner. The strategies in this book are appropriate for students in: upper elementary, middle school, high school, & college.

Do you struggle with test-taking? Flip to page 92. Begin

to discover the tips and tricks you can use immediately, for test taking success. Do you lose easy points for missing assignments? Turn to page 43, and follow the easy to read step-by-step instructions to paper organization mastery. Then, say goodbye to zeros and missing assignments once and for all! Special Features: Tips for students who live in two homes. Guidelines for students with ADD/ADHD. Guidelines to help parents & educators use this book effectively with students.

Customer Reviews

"Susan Kruger is an absolute genius! She's made getting organized simple, which is the only way kids will stick with it, and she's made it fun, which is a minor miracle. She's tremendously innovative, creative, and wise. I can't wait for the world to discover this amazing woman and all she has to offer!" -- Ned Hallowell, M.D., Ed.D. Leading ADHD expert and best-selling author of Driven to Distraction

"This program is a great value for any demographic... I have received numerous comments and seen the positive impact SOAR® has had on are students. Parents alike say the simplicity, speed, and efficiency that the SOAR® system brings, is as vital as learning addition for math class." -- Gary Thompson, Director of Toledo Technology Academy in Ohio, ranked 2nd Best High School in the Midwest

"To say our team is thrilled about the results we are seeing in the work ethic and academic progress of our students would be an incredible understatement." -- Robyn Ellis

M.S.Ed, Principal of Maeser Prep Academy "I got this for my 10 year old son. It takes you through prioritizing, setting personal and academic goals, organizing your school gear and your study space, study skills, including how to maximize textbook reading, paper writing, interacting with teachers, taking notes, and taking tests, and tracking progress. I think it's worth its weight in gold." --

Sharmian L. White, Parent "This (book) is very easy to understand. It is laid out neatly and the strategies have helped me a lot! Thank you for everything!" -- Adrienne G., College Freshman "I was getting C's and D's. Now I am getting A's and B's! I learned how to be organized and how to study...it has made such a difference!" -- Katie H., 11th grade High School "Thank you so much for this wonderful resource! I am teaching a new study skills class this year. The information you provide is invaluable. These materials are lifesavers...literally." -- Deb P., Middle School Teacher

"This is a book that needs to be given to every student of any age and it needs to be a tool that every teacher uses in the classroom. I found the book to be fun and easy to read and I learned organizational skills that I can use in my office today." -- Bonnie Jo Davis, Author of children's books series, "Mrs. Morgan Rescues..." "Why didn't someone tell me about this before?" -- Stephen G., 8th Grade "My eleven year old daughter has Aspergers and struggles with organization skills. She is very intelligent, but she was getting points off for turning in papers late because she wasn't organized. After her diagnosis the school now has a 504 plan for her and using the binder system in this book is part of that plan.

Besides the binder system there is also lots of great tips for organizing your time. It discusses different intelligences which may help you to understand your children and/or yourself better. I really enjoyed this book. It is well written and easy to understand. They also have a great website with a free study kit you can download." -- Heather B-M, Mom of 5 "This book will influence people to become more focused on their objectives in school or any other

situation." -- Christopher M., College Senior "I have investigated many programs and yours is the best!" -- Stephen D., Tutor "Your program helped me change into an A average student in High School after struggling with C's and D's.

I'm looking forward to using it in College. I have also shared the knowledge that you passed on to my ten siblings and many friends. Thank you so much for sharing your knowledge and if you need any help please let me know. Thanks again." -- Chelsea S., 12th "Susan ~

This is very exciting....the SOAR® Binder System and handbook are the cornerstone for my study skills class for all 6th graders at St. John's. We have had great success!" -- Valerie B.,

Learning Specialist "I can't believe how much easier it is for me to keep my

papers organized. Since I started using the Binder, I have not lost one assignment! My parents are so excited and I feel so much better about school. -Thank you!" -- Michael Z., 9th Grade

"I wanted to let you know that our parents are still saying great things about SOAR®. Many of the comments center on how practical everything is...Several parents are doing the weekly meeting and they love it!" -- Dave S., Assistant Principal

"This will make my school year run a lot smoother- thanks for all the wonderful ideas." -Michelle P., 4th Grade Teacher

"I loved the binder. What a simple but effective idea!" -Jennifer G., 5th Grade Teacher

The Three Principles of SOAR Learning Inc. Strategies must be time-efficient. Strategies must be effective. Strategies must apply across all content areas.

FROM THE AUTHOR Stop Struggling and start learning. As a student, I always struggled to earn decent grades in elementary and high school. It took me hours to do homework, I did awful on tests, and generally felt plain "stupid." In college, however, I learned strategies that made studying so much easier and faster. All of a sudden, I was earning nearly all "A's" in college...and it was much easier than the mediocre grades I earned before! Since that point, I have made it my mission to help other students learn how to do homework more quickly, study more efficiently, and discover their lost confidence in school.

The SOAR Study Skills book is not just a roll of the dice! It is an accredited research based curriculum, with multiple case studies. Listen to REAL stories, direct from administrators of public and private schools across the country at:

StudySkills.com/educators/case-studies. See the SOAR Research Basis at:

StudySkills.com/educators/research-basis

Bring SOAR into the classroom! As the name suggests, our Multi-Media Teacher's Guide (MMTG) is filled with tools to engage students in study skills. The MMTG includes:

- Done-for-you lesson plans. The ready-made lesson plans can be the basis of a study skills class, or embedded across the curriculum.
- Multiple Assessments give you plenty of options for monitoring progress.
- 240 done-for-you slides with interactive visuals for demonstration and instruction.
- Clean, bright, colorful presentations to capture students' interest and reach your visual learners.
- A lot of support! If you are unsure of how to teach study skills, we've incorporated background information and teaching tips for each step of the way.

Purchased this for my 14-year old as she enters high school. Hoping to help her identify study/comprehension skills that will be great tools to use in her high school career. She is doing the exercises and reading it without any direction from me! She even presented me with one of the challenges on observation. This has been a plus for her summertime reading. Hopefully it will help

her in this next chapter. I would recommend this book to parents looking to give their kids the tools to be successful.

This was a great resource. I developed a study skills curriculum from some of the concepts from this book. Nice and easy applicable concepts!

I use this book with fifth and sixth graders in small study skills groups. I really like the way the lessons are broken down and made relevant and practical for kids. I did adapt some of the lessons/materials for my specific needs, but overall, it's a very useful tool.

It's wonderful if your child follows along. My best advice is to start young!

This book was just what we needed! Although we went through the chapters together, love that it is written at my child's level for easy understanding and application.

Great resource for students.

helpful

Easy to read and understand with very clear directions and instructions. Well laid out with many useful tips for studying.
