The new Zephyr Illustration Book is a marvelous companion to Zephyr: the west wind. Composed in a variation of Japanese "anime" style, the book contains illustrations, paired narratives, and a glimpse of R. J. Tolson's goals in writing. The illustrated book makes the novel more engaging for the younger reader (late childhood - early adolescence). It graphically shows some of the challenges faced by Zephyr in his quest.

These accompanying illustrations are highly vibrant and match the intensity of "The West Wind".

I want to thank Mr. Will Kniseley for sharing this wonderful book with me. The art style is a mix of classic anime and American cartooning which provides overall interesting character concepts. The only thing I dislike is that some of the body parts are out of proportion. On page 8, Leon's mouth is

extremely close to his nose and it's very small.
