Customer Reviews

Rating: 3 stars I loved that Uriel and Gavin already know each other at the beginning of this story. Gavin is having trouble adjusting to life after his abduction, so they haven't bonded. This gives them

time to know each other and fall in love without the whole insta-love thing that usually happens in these stories. I also like that Gavin does get professional help for his troubles. The story itself was good; I just want to get some resolution to the whole Adam Fox/Joe Hepner situation. I'm starting to feel like it is dragging on forever and want a different antagonist. I have a feeling though, it's going to be an ongoing plot line for some time to come. Overall, it is a good story and I do recommend it, especially if you are a fan of the Wolves of Desires series. If you haven't read any of the previous books, I would not start with this one. I think you would be a bit lost.

I was so happy to see this eleventh book in the, Wolves Of Desire, series. Gavin is still recovering from being kidnapped and cut into by a hunter doctor, and now he's spending time with his mate, Uriel, from Sebastian's Pack. I just love these guys as much as I love the Brac Pack, however, I do believe that I am so over these hunters. They definitely are an extreme threat, and I wish they'd just disappear from the story for awhile. I think I prefer crazy exes or demons or any other creature as a threat, but these hunters (Joe and Adam) seem to be a constant. Anyway, the story was still exceptional, and the dialogue was cute between Gavin and Uriel, which had me smiling, especially towards the end. It has some nail biting action and lots of heat, with a wonderful ending. :)

I love the wolves of Desire series, and his book may very wel be my favorite. Gavin and Uriel are such great MC and I love the way they develope through tis book.
