Customer Reviews

Is ok

This book is really poorly written. It reads as if it was translated by a non-English speaker from a

foreign language. The English is horrible and the editing is non-existent. As to the content it uses terms that a true beginner would have no idea what they are before it attempts to explain them (which it basically never does). Gear recommendations are also a joke as all of them are for "middle of the road" priced gear (now that is sticking your neck out). Complete waste of money. DO NOT BUY THIS BOOK.

Lots of information, but not one illustration! As a total beginner it helped some understanding terminology. What it doesn't do is SHOW you how! Referring to illustrations that don't exist is frustrating. Glad it was a "free" rental through Prime.

Lots of good info on this. Even if you've been fly fishing for years. If you are experienced, some of it may get a bit too basic.
