Customer Reviews

great product, fast shipping!

I was struggling to understand my textbook (Lawson) and my instructor. I would read the textbook and feel like I barely understood. Then I would go to class and get asked deep theoretical questions and run on wild speculation about what is going on in Justice Scalia's head. When it was all over I was completely confused. This book solved the problem. It is clear and concise and it does a very thorough job of covering the essentials. Even if this book only contained the section on Chevron, Mead, and Skidmore it would be worth it. I have not taken my admin law test yet so I will post an update once I see if I understand as well as I think I do.
