Customer Reviews

* "Joyous cacophony for the younger set." -- Kirkus, STARRED REVIEW "The audio quality and technology are impressive (like a smartphone screen, no pressing is required to trigger the noises), the digital graphics are appealingly cheery, and (importantly for parents) the book comes with an on-off switch embedded in the back cover to preserve both battery life and peace of mind." --

My little son love it

My sons love these books by Marion Billet. He wisely puts a button for kids to play to hear the sound effects. Other books have flaps that my boys have torn off. These books have lasted much longer.
