Genie In A Bottle: Whatever After, Book 9

Synopsis

The next installment of this New York Times best-selling series takes Abby and Jonah into the story of Aladdin! Abby and her little brother, Jonah, have a magic mirror in their basement that takes them to different fairy tales, which they always wind up messing up. But sometimes it's for the better: Snow White doesn't eat the apple; Cinderella gets a job she loves. In this enchanting ninth installment, the siblings fall into the story of Aladdin. They're excited to be in this world of magic carpets and genies...but making three wishes isn't so easy, and soon hilarities and hijinks ensue! These books are feminist fairy tales for a new generation.

Customer Reviews

My 8 year old and I have read every Whatever After book out. Even though this one just came out today, she as usual of this series, begged me to read the entire book tonight. Genie in a bottle did not disappoint in anyway an kept her inattentive self engaged as a listener. (A challenging feat normally)I don't really want to give away anything since the plot twists are part of the entertainment but I will say this author definitely does her homework on this fairytale. There are so so so many versions and she seamlessly intertwined them into a very original and occasionally funny book.I like that she can target multiple audiences with her books. As a mother sometimes series books can get predictable in their layouts but not nearly as much with Ms. Mlynowski's book. I even find myself waiting for the next book to come out....curious to know more about the mysterious Maryrose. What exactly is her curse? How did the mirror get into the basement? Will she always be trapped in the

mirror? I have some hunches but nothing conclusive so while my child awaits book #10 Sugar and Spice, I too will be left wanting more. One of the best signs of a good book in my opinion is not wanting the story to end.

My daughter always looks forward to reading the latest book in this series. She started reading them when she was 8 and has kept enjoying each new book. They have a little bit of fantasy, humor, and a lot of realistic interaction between the characters.

My daughter absolutely loves this series. I'm always so excited when I see a new one has come out, and order it right away. I used to reserve them at the library, but the wait is so long that she gets disappointed! It's worth the splurge to pay full price for these. My daughter is 11 and finds the stories interesting and fun. She's always looking forward to what is going to happen next.

cute series...we've read them all!

Just as stated

We enjoy all of these books. We buy each one as soon as they come out and my 8-year old and I read them together

Love these books - our favorite series!

Great series of books.
