Customer Reviews

The book is 10 times more difficult than the actual test even if the title of exam is 'Senior'. Couldn't be more prepared for general and more specific exam! made test look like cake! make sure you finish all of it including the 4 tests in the back. When you make a mistake go in the back and read the correct answer including the explanation' this is how you really learn. Some of them are too long but it is worth it.

This book has plenty of practice that helped me prepare for the exam, since I get anxiety when I

take exams; this book was a lot harder than the actual test I took for a County job, but that was very good for me because it helped me pass my exam and score high. I give this book 5 stars!! I highly recommend this book.

It is a general case worker book. A lot of the material in the book had small information on all types of case workers and as a result it wasn't as helpful as I thought it would be. This is not good as a study guide but good as an intro guide to all types of case working.

worthless book. Was supposed to be the manual - was only How to take the CC test. Waste of money.

Not one single thing I studied was on the test.

great for review if taking the test

great for studying. helpful practice tests

Seems ok they need to update
