Customer Reviews

Amazing book!!! More detailed tabs on songs than you get from other books with the same songs, making you play then closer the originals.

Although I wish they would re-do the horrible transcription of Maiden's first four albums that was out in the late 80's, the recent transcriptions from Hal Leonard is awesome and includes some of the greats that I've been wanting to learn. Fantastic!

Lot's of great songs, top product and seller!
