"Examining the image of Our Lady was the greatest experience of my life. When close to it, I had strange feelings, similar to those experienced by people that had worked on the Turin Shroud." -- Philip S. Callahan, Ph.D., Research Biophysicist, University of Florida "One cannot understand the identity of Latin Americans, their profound Marian character, without being familiar with the history of Our Lady of Guadalupe. This amazing book helps one to fathom this great mystery." -- Włodzimierz Redzioch, Author, Stories about Saint John Paul II

Until I picked up this book, I had no idea that the tilma of Our Lady of Guadalupe was laden with a code which is hidden from the average and untrained eye. But with the help of master historians and the understanding of the times and locale of Mexico City in the early 16th century, the mystery has been uncovered. And it is. Epic. The conversion of Mexico was truly a miracle. Did you know that the nation, millions of people vastly different worldview and religious practices, converted to Christianity with a decade? Historians do not doubt that during the first evangelizing effort in Mexico, the work of the missionaries was extraordinary." It is truly a miracle, some 10 million, converted within just 10 years. Historical demographers estimate that there were about 400 million people alive in the 1530s, which means at least 2.5% of the world, and almost 95% of the central Americas was converted from this event. There's a reason why Our Lady of Guadalupe was so fundamental. and it's true staggering. It was the tilma which contained a code that was used to convert the nation. At the time, the region at large was home to two disparate peoples: the Latin Americans, and the Aztec. What is truly remarkable about Our Lady of Guadalupe, and genius in God's perfect knowledge, is that the tilma contained imagery that was immediately recognized as religious iconography, a perfect and unquestionable sign of religious supernatural activity. Here's a few examples: From a Christian perspective: 1. The stars indicate Mary's title of Queen of Heaven 2. The leaves are a symbol of paradise 3. Our Lady's sash represents purity and virginity And much more... From an Aztec perspective: 1. Her maskless face signifies her as human, not goddess 2. Obscuring the sunlight means she is more powerful than the sun itself 3. The moon as her footstool represents the diminishment of moon Gods by this woman 4. Her folded hands mean she recognizes there is one greater than her There's much more... And there's a lot more to learn. For example, did you know there's a connection to Our Lady of Guadalupe and the soon-to-be Reformation Europe, and King Henry XVI? Did you know that the site of the miracle of Our Lady of Guadalupe is the most popular pilgrimage in the entire world? Did you realize that if you visit, pilgrims may touch the actual tilma? What's intriguing is the things that have been found in the eyes

of the tilma of Our Lady of Guadalupe. I want you to learn all about this, which is why I am sharing imaged from this amazing book from Ignatius Press, Guadalupe Mysteries: Deciphering the Code.
