Diane Phillips is a cooking instructor, food consultant, and award-winning cookbook author. She lives in San Diego, California.

I just bought my first fuzzy logic rice cooker, and wanted some recipes beyond the manual. When I bought this cookbook there were no reviews, but when I saw it was by Diane Phillips I knew I could trust it - I have her "Perfect Party Food" and "You've Got it Made" cookbooks, and they have never let me down. This cookbook has a variety of recipes, not just for white rice, but for brown rice, wild rice, bulgar, farro, quinoa, barley, grits, polenta, oatmeal and dried beans. There are lots of yummy recipes for using the "mixed" cycle on your rice cooker, most of which can be done start to finish in the cooker. There are instructions for both fuzzy logic and on/off machines in most of the recipes.

Ok I gave this book to my daughter, along with a rice cooker, for Christmas. After she opened her present, next thing I see is my other daughter, my daughter in-law were going through the book and wanting to borrow it. It appears to have a lot of great recipes

Great book! I've always loved risotto, but could never make it well. This book showed me how to make perfect risotto very easily.

There are some very tasty recipes in here, but the instructions for using the rice cooker as an all-in-one don't exactly work. I have a fuzzy logic machine, and the quick cook function works great for sauteeing - but then the recipe says to turn it off and start a regular rice cooking cycle. The machine will not restart until it is cooled down to almost cold! So I end up either doing the sautee step on the stove, or doing it with the quick cook function and then pouring the recipe into another pot on the stove. Both defeat the purpose of the book, which is to cook everything in the cooker! Any help out there?

I love this cookbook. Great ideas for rice.

Great item and delivery time!
