This book is a total waste of money. I did notice before I purchased that it's only 95 pages, but since it said it was a 'concise' guide I was not concerned. It isn't concise -- it is practically empty of any useful content whatsoever! The book uses an ENORMOUS font and large margins, includes some cute graphics, and presents very little info on any page. It has a few maps in the back, which look like they're simply screen shots from Yahoo Maps and are too small to be very useful. There are 6 pages of info on other books by the same author, and that contains more info than the section on What to See & Do. This book is going into the recycling bin.
