The Electronic Health Record For The Physician's Office: For Simchart For The Medical Office, 2e

Synopsis

Get hands-on practice with entering data into the Electronic Health Record! The Electronic Health Record for the Physician's Office, 2nd Edition uses online simulations to walk you through each EHR task. Clear, step-by-step guidelines simplify the exercises in each simulation, so you learn all the EHR skills required of a medical office professional. This edition adds in-depth review and preparation for the Certified Electronic Health Records Specialist (CEHRS) examination. Written by Medical Assisting educator Julie Pepper, this how-to manual helps you master the administrative, clinical, and billing/coding skills you need to gain certification and succeed on the job. Use of SimChart for the Medical Office (SCMO) for all EHR/practice management applications makes it easier to learn and apply EHR fundamentals. Realistic, hands-on practice helps you develop EHR skills including implementation, HIPAA compliance, troubleshooting, and submitting claims for reimbursement. Safe learning environment allows you to learn and practice tasks without fear of making a mistake affecting real patients. A guided tour through SCMO shows how to use the online simulations and practice EHR tasks. Application exercises in the appendix cover administrative, clinical, and insurance/billing, allowing you to practice the skills learned in the text. Student learning resources on the Evolve companion website include form upload, cases, additional insurance cards, and patient information forms, all providing additional practice.

Customer Reviews

As far as textbooks go this was better than many. I find textbooks usually very dry and boring. This was not too long which is great and not as boring. However I was really annoyed that because I

wasn't enrolled in a class I couldn't access SimChart to do the practice exercises. The mock CEHRS review is good I guess but I don't know how aligned it is to the actual test. But Elsevier should allow those who want to do self-study to access the practice component. Everything is money. I am trying to save money by doing self-study and for a short book this was not a cheap book.
