Helpful guide, and what I have been needing for a long time. Thank you, Marianne for sharing your knowledge!

As always Marianne Binetti has captured the best plants for us to use in our gardens here in Washington and Oregon. She is a local woman and has been involved in gardening, gardening on the radio and public appearances. This book captures the essence of her ideas for a successful garden based on what works for our area !!!

I use this book frequently for plant selection. The quick-guide is useful and it is cheap. The information for each plant tends to be very brief. If you are looking for a more thorough guide, I recommend the *Sunset Western Garden Book*.
