Customer Reviews

The book gave me a honest view of what writting erotica was about. Its full of great tips, on the foundation of the genre. I really enjoyed reading. And I I'm look forward to getting my "dirty thirty" out there in front of readers. All in all no complaints on this book. Good read for anyone trying to get in the business.

I have always enjoyed reading books and writing stories. I'm just getting back into writing erotica and found quite a few tips and tricks in this book. Some I knew of already and some I didn't. Good info on how to get started with Kindle publishing. Worth a read if your just starting out or even if you're just thinking about getting into writing.

This title was well written and full of data on self publishing. But was not quite what I was seeking. The self publishing data can help across the board in various genres and sub genre.

I found this to be one of the best writing guides I have read. The author was very articulate and candid, and she was able to cover a great deal of information in detail. In short, highly recommended!

I want to find a source of extra income. I read a lot of kindle books so why not try to write one? This book tells you how to publish, about your cover, and how to promote. The writing is up to you. I read the book several times.

Very informative easy read. Thank you. I enjoyed reading this book as it gave not only good advice but also honest opinions of the ups and downs to expect when writing in this area.

Awesome book!

Very useful. I found the suggestion on Evernote to be helpful. In fact I started writing a story plot down already!
