Customer Reviews

I love this series so much and would for sure recommend the sequel- Fallen in Love. BUT WARNING: do not read the sequel until you have read at least the first 3 novels.

If you are looking for a great series that involves Angels, mortals, teenage angst that includes love and lust - this is a must buy. I immediately fell in love with this series and have re-read it countless times. Every time I read it I find another piece of the story that I missed the last time I read it or at least I come to understand the story a little better with each read. It is such a great story that covers many life times of love and loss and it takes you along on the journey to witness whether this love if

that is worth all it has endured and lost in the end. I promise this is not a waste of your time or money. Melissa

I loved the entire series! I didn't find any errors. The book was well written. Great plot and characters. I loved following Daniel and Luce through all their ups and downs and finally learning their epic love story.

I loved this series! As soon as I began reading it I wasn't able to put it down. I was able to bring all the characters to life in my mind, which I love doing. I was able to feel the emotion of these characters and I enjoyed the overall storyline. I gave it a 4 because I felt that they did drag a bit in the 3rd book. I felt that we didn't need to travel so much with Lucinda to get the point the author was making but that was my only dislike. Other than this, I enjoyed the series.

I really enjoyed these books. I loved the plot and the characters. I would urge everyone who likes the Fallen series to read the Infernal Devices and The Mortal Instruments by Cassandra Clare. The Infernal Devices picks up the nephilim and delves into the world of the Shadowhunters. Hold on to your seats because it's a fast ride.

My daughter loves these books! She had read the first in the series as an ebook, and wanted the rest of these for Christmas 2015. I found this hardcover set at a great price. She was thrilled to get "real" books!! I highly recommend the entire series in ANY format, and the condition and quality of these books will surely be a treasure for her for years to come.

Already have nook version from way back when but finally got physical book version

Daughters loved the story
