The Lost Tarot Of Nostradamus Kit

Synopsis

This pack contains 78 full-color tarot cards as well as an illustrated instructional booklet. In 1994 a researcher working in the Italian National Library in Rome discovered a manuscript containing 80 mysterious paintings, believed to have been devised by the mysterious prophet Michael de Nostredame, better known as Nostradamus. The manuscript, never published in his lifetime, was handed down to his son who later presented it to Pope Urban VIII. After that it remained forgotten and neglected. A brief glance at these extraordinary images shows how heavily they draw on the symbolism of Tarot. It is the belief of Tarot experts, Matthews and Kinghan, that Nostradamus was designing his own set of cards, drawing upon the visionary insights gleaned from his prophetic writings and visions. Now this Tarot has been brought to fruition by two modern experts and its secrets revealed for the first time. Visionary artist Wil Kinghan and New York Times best-selling author and longtime student of Tarot, John Matthews have devised a deck which incorporates Nostradamus' own images, fully updated to make what will surely be judged one of the most important decks of this age.

Customer Reviews

"The methodical, yet creative, manner in which this deck was constructed gives us a tarot deck which is visually exciting, symbolically dense, and rich in esoteric wisdom from a time in which such teachings thrived. If you love tarot, this is a must-have." [TarotWise.com blog](#) "The coolest thing about this deck is the story behind it! In 1994, an undiscovered volume of Nostradamus' work

was found. In it was the drawings for a Tarot deck that Nostradamus had been creating. The authors took those images and created The Lost Tarot of Nostradamus." Æð –â •The Daily Tarot Girl blog" This is a great deck for collectors. There's nothing else out there that is quite like it. The research and dedication to the project creates a great deal of depth and meaning that warrants respect and appreciation. This may not be a go to deck for regular readings, but its mysterious energy and information packed guidebook are a treat for Tarot lovers and collectors. If you are looking for a Tarot that isn't afraid to break the mold, this might be just the deck you are looking for." Æð –â •Aeclectic Tarot blog

John Matthews has produced a number of successful divinatory systems based on early spiritual beliefs Æð –â •including the best selling Arthurian Tarot (with Caitlin Matthews and Miranda Gray), The Wildwood Tarot (with Mark Ryan and Will Worthington), The Green Man Tree Oracle (with Will Worthington), The Celtic Animal Oracle and Grail Tarot (with Giovanni Casselli). His book, Pirates, was No 1 in the New York Times Book Review and a best seller for 22 weeks in 2007. Wil Kinghan is a writer, artist and explorer of the Hermetic and Celtic traditions. He studied Archeology at University College Dublin, and Environmental Design at NCAD in the 1980s. He left advertising to form his own company and develop his art and writing. He recently completed work on several writing and illustration projects including The Shaman's Oracle (Watkins) and The Ancestor Oracle (Watkins).

This is a lovely book and deck set, the box is incredible sturdy as are the cards. The book comes in handy because the artwork based on the 1500's may be a little to a lot harder to interpret them as you would Rider Waite. I love the images in particular the magician, a mans head with a dragons body wow! With all the major arcana there is the interpretation and also added and extract of poetic lines (couplet) from Nostradamus translated into English with prophetic reference, which I found fascinating. An example is the Death card and the extract refers to the rise of Adolf Hitler. The book is 160 pages long with good descriptions of the cards as well a picture of the card, so no getting lost. There are also some tarot spreads at the end of the book. I like this book and admire the authors for their hard work, I can imagine translating from Latin and cryptic artwork was no easy feat. Thank you

This kit was exactly what I expected and then some. The box in which the cards and book are

contained is extremely sturdy and aesthetically pleasing. The cards themselves are beautiful and full of esoteric symbolism. The book is thorough and informative. It is very well written and the quality matches everything else in this kit. It is going to be both challenging and rewarding to work with this deck. The card stock is very sturdy. The only negative I have about this deck is that the card stock is a bit too sturdy. There is absolutely no flexibility in them whatsoever. It's going to take a lot of handling to break them in. I would not recommend this deck to anyone who is just starting out with Tarot but those who are seasoned practitioners or simply those who are collectors, this is a must have for your collection.

This is a stunning deck I am so happy with it. Best price and best deck out of any I've owned. Full of knowledge as well. It tells you about who Nostradamus is if you're unaware and shows the meanings of the cards in the most amazing ways. The heart is a reminder of Leonardo Di Vinci so very beautiful. I can't wait to go my first reading after thoroughly reading the beautiful and knowledge filled guide ! The card stock quality is so superior to others I have had and it is worth more than what you pay in the long run !

This is a part of history that is coming through, the Cards are very beautiful indeed, along with the historic book enclosed, that teaches you about the life of Nostradamus who I love dearly. I think everyone who do Tarot, should have a copy for their archives. I will buy another copy for one of my sons birthday. Thank you and thank you Nostradamus.

I'm not crazy about the art but this set is a great deal for a collection. The cards are actually of reasonably decent quality, and it comes with a full size book and nice box. There's no way I could get used to reading these cards, but I'm glad I bought them.

I can't believe the price! I expected just a pack of cards and a small paper book! I got a huge box with a large book! I finally got a deck that was different than the Wands, Cups, Pentacle/coins, and swords that you always find. Though they are kinda exactly the same still... I love that they're different. Each house has different face cards, which is really nice. For the price it looks like an attractive first deck for the poor college student who's looking for a deck to learn with. If you're new, I don't recommend it, just because it's kinda hard to use if you don't know the basics. If you've been doing this awhile, or have someone who is willing to teach you, then it'll be good.

I have enjoyed the quality color and easy to read and use of this deck. The book has great learning information about Nostradamus and his every own sketches are used on the individual cards. These are nice to look at and use and because the understanding is so simple to read and readily understand you will find yourself using them every time even if you have used the rider deck for years like I have always done. I still reach for these first now verses my rider deck, they have been accurate and as I said easy to read and understand. The different spreads help you to quickly do a simple 3 to 5 card read, just answer a question or do a full reading.

Card stock is awful.
