This was a great book depicting everything that happens in pre school. Daniel goes to school with his father..how he tries to say his father not to leave and what happens after his father leaves him. Daniel made friends in school ..everybody made pictures there and played and at the end as his father said grown up comes back. So it's nice book to encourage them to go to school and ensure them that grown up comes back at end of day. There was no sad part ..rather balanced and well thought descriptions. My son loved it. But I wish it to be a board book other than that it awesome book at awesome price.

This is basically a written out version of the episode (if you've ever seen the episode "grown-ups come back") We purchased in anticipation of starting preschool and because she knew the song/episode, I found it very helpful. On the way to school the first few days, we sang "grown ups come back" and then had a talk about mommy coming back at the end of the day. It was helpful.

My 2 year old likes this book and it helped a lot before going to preschool. It is paper back so the pages are thin. My son is out of his ripping book stage, but if your little one is not, I would get the board book.

Great book, goes along with the corresponding episode where Daniel Tiger first goes to school. Would be great to help new preschoolers/kindergartners adjust to or prepare for starting school.

My nearly 3 year old grandson is a big Daniel Tiger fan and asks me to read this to him all the time.

My daughter is in love with Daniel and thought this would be good book as her 1st day of preschool approached. Book's pages didn't fill the page and trying to fit two pages on an iPad screen isn't great. Story line could have been better as well. As I said above, it's all just ok.

Very happy with product. Quick delivery.

I bought this for my 3 year old who is having trouble adjusting to preschool. It really helps. We read this before school and it truly helped him with the transition from being home to going to school.
