I got this for my daughter who is 4, she loves super heroes and loves this book! So now she can read this and see all her heroes and learn colors, shapes, and more!

My little one loves superheroes and these books are perfect for her!!!

My then 2 year old learned his colors this way!"Captain america blue..""Superman red and blue...

Our little girl is now five, and we have purchased these books for many new parents!

My son love this book and I love it too, cause he is learning the color and shapes but also the superheroes names. lol

This book is super colorful and a fun way to teach kids. It is very sturdy and looks like it will hold up well over time. This is definitely a read to the child kind of book as it has some advance vocabulary, which make it more fun for the grown up. I like how this book doesn't dumb down the language and the content to much, making it even more of a learning experience. Did I mention kids love it, so colorful, great drawing, and very sturdy!

Omg my friend's son LOVED this book!

My son loves this book! He is fifteen months old and one of his first five words was Batman. He constantly brings this book over to read--he already has learned to say red and green. Keeps his attention much better than other color books because he's into superheroes. Highly recommended!!!
