My Single Mom Life: Stories And Practical Lessons For Your Journey

Synopsis

The day Angela Thomas sold the only thing she had, the diamond from her engagement ring, to take care of her kids was the day she began to believe they were going to make it. In that decision, the faith she had always talked about became the faith she was going to learn how to live. In the years since, God has given Angela a passionate desire . . . to live an amazing life, even while raising four kids as a single mom. In this book she shares her hard-earned wisdom on loneliness, dating, finances, and parenting, encouraging every solo mom. "As a gift to our children," she says, "we can become healthy moms who are strong and amazing women in spite of our circumstances."

Helped me feel like I could relate to someone! Its so hard going through a divorce and just hearing someone else experience, trials and errors gives some comfort. She has great tips and helps you keep the important things in mind - your kids and making their environment the best for them! I also like how she incorporates her struggles of her religion and this impacted her idea of divorce. This is NOT at all a religious book!! But I do like how she touched on this as this is something I really

struggled with. I would recommend and I did find a lot of comfort in reading this book.

I was completely blessed by this book and for the reviewers that gave it only two stars well I just think they are not relying upon Jesus. This book is aimed at single moms period. It doesn't go through your own personal situation whether it be an abusive ex husband it just goes through the utter pain and loneliness and awesome kinship of all divorced or broken situation one where you now understand that you are not alone either from the big guy upstairs or of other women that have gone before you. This book is helping me understand how strong I have become and that although I am single I don't need anything else but our Lord and Saviour as a partner in raising my children. This book has been amazing so far. Don't forget the tissues because it did bring tears to my eyes because it just does. Let's face it divorce is ugly no matter how you look at it.

I am a single mom and this book was a life changer for me!! Angela Thomas is amazing!!

Angela is the best writer!. Her way of sharing her experience was so helpful to me. Gave book to other divorced friends.

Excellent Book!!

I was looking for a book to help describe the pain, anxiousness, feelings of inadequacy I was experiencing in the middle of a divorce. A friend recommended this book and it was a Godsend. To hear the author talk about the same struggles and feelings I was going through was tremendously helpful. I highly recommend this book.

Great book - touching, insightful, powerful look inside a single mom's life. This should be required reading for all Christian single moms.

I had this book a year before reading it. When I finally started reading it, I could not put it down. It spoke to my experience and made me realize that no matter your background, going through a divorce and becoming a single mom plays out in a universal experience.
