Customer Reviews

Interesting book even though some of the Russian used is outdated compared to modern usage. Nevertheless it is a gem and enjoyed working with the writing skills, vocabulary, grammar, etc. A nice collectors book when used to compare with other more contemporary books in usage nowadays.

Thanks book taught Americans Russian since the 50's and it's still a well thought out book

I really liked this book because it is very reader-friendly for people who don't have experience with Russian. But, after I showed this book to my Russian friends, and my Russian professor from my University, they all said some vocabularies are out-dated.

I am so excited to use this book! I need it for my language this semester, and although I understand

that language books tend to be priced a little higher, I was so fortunate to find this for a great price!
Thanks again!

This book has reasonable approximations of Russian pronunciation, and lots of grammar, but some of the words are slightly dated. Most of the names of cities are the USSR versions, not the Russian (i.e. Leningrad, not St. Petersburg). Otherwise, though, the examples are good and the exercises can be interesting. I'd recommend it for basic vocabulary and grammar, and a good Russian-English dictionary for more modern words.
