Zoologist Jim Kavanagh has made a career out of introducing novices to plants, animals, the sciences and world cultures. In addition to creating over 500 simplified nature guides, he has also authored guides to languages, cities and outdoor skills. An avid traveler and backpacker, Kavanagh's path has taken him around the world to many remote destinations including the upper , Africa, Australia, and the Arctic Circle (and this is just the As). He is also the author of a series of state-specific guides to common species and natural attractions and a children's book on evolution.

This is a marvelous source. Better than flipping through a book when a butterfly visits your garden for a minutes. I have already identified a few butterflies very quickly and before they decided to leave.

Great guide. Sits by my window making it very easy to grab and compare with the butterfly in our garden.

Great addition to our homeschool nature studies! **See my reviews of VA Birds guide in this same series. Everything I mentioned there is also true of this VA butterfly guide. Love them!

Product recieved on time and in very good shape. The item is very informative on it's subject. Having photography as a hobby,the book will help me I.D. butterflies that I photograph.
