Customer Reviews

She's baaaaaaack! What a great new addition to the Olde series - bought it today, reading it on my work computer and can't wait to start making the goodies - even tho I'm rubbish with polymer clay, the instructions are so clear and detailed I know I'll be successful. In addition to some great tutorials, the book is also full of tips and tricks. After 30+ years of making minis I thought I knew them all, but I'm only half way through and have already picked up some great ideas. The charts and instructions for the counter (too cute!) and other constructions (wait till u see the dear little scales!) are simple yet concise and I love the section about being organised. I spent two and a half hours on Sunday looking for two little black metal doorknobs that I knew I had ... somewhere. Found them eventually but was in such a bad mood from looking, I didn't want to make anything anymore. Whether you're a beginner or an expert (cough) you are sure to love making this project. It's not just sweet, it's

adorable. I love it!!
