Secret Sea

Synopsis

Secret Sea is a book about connections. Move within it however you choose; from macro to wide-angle, front to back--back to front, or, like the radiating arms of a starfish, push out from the center. Forming a unique expression, the individual images, as intriguing as each is, are meant to be viewed not only singly, but as components within a series. Slip beneath the surface of the Secret Sea and take a closer look at a glorious and seldom-seen world of unparalleled beauty.

Book Information

Hardcover: 164 pages

Publisher: Fourth Day Publishing; illustrated edition edition (December 1995)

Customer Reviews

Turning the rhythms of the sea into songs that everyone can sing, Secret Sea is a book like none other.

Burt Jones and Maurine Shimlock, an Austin, TX based husband and wife photojournalist team, have spent many hundreds of hours underwater studying the fascinating creatures that inhabit the marine world. Their knowledge of the complex relationships that exist among marine animals has enabled them to produce a series of unique images, collectively known as The Secret Sea.

Some of the best underwater photos ever.

This isn't just another pretty coffee table book. The spectacular images of marine life in concert with the vivid and informative writing connect the reader to a fascinating underwater world. You will look

at the pictures and re-read the text 1,000 times, discovering the authors' passion for complex sea life. I've given this book as a gift and, without exception, the recipients have been enthralled
