## Customer Reviews

This is a neat little book on the initial characters of Overwatch. You get the feeling its offered to a younger audience as it is not very detailed (not any more detailed than Blizzard's own website). The title is accurate in that it is a world guide as each character has about one-two pages front and back

with a little information and the original map locations are introduced. I would love to see a more robust and extensive Overwatch books in the future.

My grandson was very happy with this book. Nice quality and fast service. Thank you!!

Nothing fantastic about this book .

My son loves this book. It explains the history of each character. Great bedtime reading with my son.

Few pages - My son finished reading it in 3.5 minutes- not worth it!

My kid wanted this after he saw it at the book fair at school. he was excited when it came in at half the price.

Bought this for my 10 year old cousin and he absolutely loved it. Would recommend.

Reading material for my 10 year old.
