Suzanne McNeill is often known as a Trendsetter for arts and crafts. Dedicated to hands-on creativity, she constantly tests, experiments and invents something new and exciting. Suzanne is the woman behind Design Originals, a publishing company dedicated to all things fun and creative. She is a designer, artist, columnist, TV personality, publisher, art instructor, author and lover of everything hands-on. She was the 2011 winner of the Craft and Hobby Association's Industry Achievement Award.

I bought what was supposed to be an informative, original ideas how to book, which it was. Except

all the material, and more, is available for free, with on line videos, from dharma.com. To the authors credit they mention dharma.com as a supplier for dyes and shirts. They just don't mention the dozens of free videos also freely available, with better instructions. The China printed book is at most a garage sale item at a quarter or fifty cents. If there was one or two popular projects that were "secret" the cost would be worth it, but not only was it lacking that, which projects it did list were rehashed from the sixties.

I haven't tried making anything from the book but I read through it and the techniques were spelled out very well. The pictures in the book were great and I would say inspiring. I can't wait to give it a try. I made a tie-dye shirt many many years ago and I wore it out. I loved it but it didn't hold a candle to the lovely shirts in the book. I wish I had this book way back then. I am so glad I got it, it's not a big book but a good price for all the information and pictures it has. In my opinion, this is a great buy.

I purchase this for my daughter in law, who loves to tie dye. She has already made one of the shirts from the book (the watermelon), and she has her eyes on several others. This was an Easter gift, and she was so excited to receive it. I was very please with this purchase!!

Tie-Dye 101: How to Make Over 20 Fabulous Patterns (Design Originals)Ã Â Very easy to follow instructions for different designs ... I was hoping for more though. It is more like a pamphlet than a book

Good photos and instructions. Shows the steps, ingredients, and how to prepare items very well. Loved the shibori, star, and flag folding techniques, the other designs are a bit bland, and simplistic, but it is well worth buying.

If you've never, ever done tie dye before, you'll probably find this useful, otherwise, don't expect to learn any earthshattering tricks or tips from this one. I learned the vast majority of what this book contains from asking a few questions of the craft staff at the YMCA of the Rockies. Looks like I'll have to invest in the comprehensive video series on the same subject. Or perhaps Santa will bring it because I have been soooooo very good this year. PS-Seller was awesome. I received it in no time flat. Thanks!!

For those who cannot use the Internet, or children. Did not have 20 designs and had less than 15 pages..

Not the 20 fabulous patterns I was hoping for. VERY basic stuff.
