Rubber Band Loom Crafts

Synopsis

Rubber band jewelry is taking the world by storm! Everybody wants the colorful bracelets, necklaces, and rings that are so much fun to create on looms with rows of plastic pins. Whether it's called Rainbow Loom, Wonder Loom, FunLoom, Cra-Z-Loom, or other names, the looms and their supplies create a shopping frenzy each time a new shipment arrives at stores. Rubber Band Loom Crafts includes full instructions and charts for placing and looping the bands on the loom pins for eight bracelet patterns: Single, Triple Single, Fishtail, Diamond, Double Rhombus, Butterfly Blossoms, Chain Mail, and Zippy Chain. Tips are given throughout for alternate color combinations and projects such as rings, necklaces, barrettes, and headbands

First off I will say that this is a ~good~ book with clear pictures and directions....but....it is only 24 pages, a very thin book! It should be priced at around four bucks if you ask me and is a "starter" book only. You can get all of these designs on You Tube but it is nice to have something for the kids to follow without electronics. This seems to be one of the first actual books out so if you have

nothing, this is a good start. After buying this for my daughter who already knew 3 of the 9 designs that are in the book before we got it, we opted for the spiral bound book with over a hundred pages, that is great. It is harder to find but overstock.com had it for twelve bucks.

The book arrived without the charts and instructions are not clear at all. At the end, my daughter had to look for instructions on internet and that way she was able to learn really fast. Don't waste your money on that.

bought as a gift

The loom rage has had its peak but if you wonder what to do with those bags full of rubber bands, this book has some nice projects with clear explanation.

birthday present for granddaughter. She makes all kinds of jewelry.

this book is very easy to follow, my daughter uses it all the time and she is only 10 years old and has a hard time following directions.

Great ideas for many projects

My sons received this for Christmas. My nine year old has found the book easy to use. He especially likes that the band being used is highlighted in the accompanying pictures. He has made a bracelet and a ring already and without mistakes. Very user friendly book!
