Marianna Armata is a professional graphic designer and award-winning, published photographer. In

recent years, Marianna's genuine passion for the natural environment, her eye for beauty in both the man-made and the natural realms, and her mastery of photography as art have created an alloy that speaks volumes about the harmony that can  $\cdot$  and must  $\cdot$  exist in our modern world between humans and nature. Her interest in mushrooms began as a child when she would follow her parents on mushroom forays in Eastern Europe. Collecting and eating wild mushrooms has been a tradition in her family for generations.

Good quality, nice pictures. Great gift for mushroom enthusiasts. It's fun to look at the descriptions printed on them but I WOULDN'T recommend taking them seriously. If you are looking for something more accurate for educational purpose, find a book.

Since I love mushrooms and cook with them often, I thought this calendar would be a great addition to my kitchen. And it is! Great art photos with info on each mushroom type- those that are good eating as well as those you should avoid!Enough space to write memos for each day of the month. Very nice!

Very first month, describing *Amanita muscaria*, was a disaster. Won't be buying this one again.

Christmas gift for my daughter's boyfriend. He loved it!

Perfect for that special mushroom lover in your life!

I've been thoroughly enjoying my miraculous mushrooms all year.

Beautiful pictures!!!

Such beautiful photography!
