Book by Capwell, Tobias

Beautifully illustrated edged weapon reference for the beginner. It lacks showing the associated sheaths and scabbards for most and gives only the overall length and not blade only length. It can use a better index and a "How to identify" section which could include charts listing pertinent data such as dimensions, materials, markings, edges etc. overall a good beginning for the new collector.

Great book, lightning fast delivery...Ty

I use this book almost every day in my search for my bayonet collection. It is a great book rate 5 stars
