# The KPOP Dictionary: 500 Essential Korean Slang Words And Phrases Every K-Pop, K-Drama, K-Movie Fan Should Know

## Synopsis

Learn to understand what your favorite K-Pop idols are saying on MV, TV Shows, and Dramas!- 500 Essential K-Pop Words and Phrases- Pronunciation Guide for Accuracy- Definitions and Their Cultural Background- Real Life Conversation ExamplesHave you just started following K-Pop and K-Drama but can't understand the lingo? Do you want to be a part of K-Pop and K-Drama fandom but can't blend in because you don't know the jargon everyone is using? Or are you an experienced K-Pop / K-Drama fan wanting to expand your vocabulary?Then this book is for you!The K-Pop Dictionary is designed to help you learn the most up-to-date vocabulary used in K-Pop, TV shows,and K-Dramas. As the title of this book suggests, this is not an ordinary dictionary:It is specifically designed to teach you what the words mean in a K-Pop and K-Drama context, because without knowing the cultural background of the words, they are just a bunch of enigmas. So we have included essential information such as where the words originated, plus where, when, and how they are used. Without this, you are missing out on all the news and updates other fans are talking about!We have also included real life examples of their use. You will gain a thorough understanding of the vocabulary, its nuances, and its origins. You can use this as a quick reference book any time you run into K-Pop and K-Drama lingo, or as a study reference by utilizing the conversation examples included on every page. Whatever your goal, this is a great way to expand your K-Pop and K-Drama knowledge; your window into the fascinating world of Korean culture!A dictionary of honest human interaction, Korean pop culture, and everyday K-POP life. A resource for language learners confused by real-world Korean, and a tool to help you understand the world of a K-POP fan. But more importantly, great entertainment for everyone.

A dictionary of honest human interaction, Korean pop culture, and everyday K-POP life. A resource for language learners confused by real-world Korean, and a tool to understand the world of a K-POP fan. But more importantly, a great entertainment for everyone.

My girlfriend is Mexican and a big fan of K-Dramas. When we watch them together sometimes it is difficult to explain subtle nuances (subtitles just don't do justice). For example, when someone says "ajusshi", it means a lot more than a "middle-aged man". This book is a useful tool as it explains in great detail how the word came about and how it is actually used in different settings. Many props!

If you are a fan of K-pop, K-drama, K-movies, this book is a great reference to understand the lingo you can't find in regular dictionary. It has 500 slang words & phrases + examples, which are new to even a Korean-speaking audience like myself. Ideal for someone who wants to understand the subtle nuances and their origins. And the explanations and examples are humorous.

I got this book for myself and convinced a friend who just got into K-POP to get it as well. I don't use it as much because I recognize most of the phrases and words in it already since I have been learning Korean for awhile now, but my friend takes it everywhere he goes and is always reading it at work on breaks and at home. It has made him want to learn even more about the Korean language and culture so I think this was a really good purchase. Thank you for inspiring my friend!

I think Korean is a really difficult language to learn, especially for non-Asian students because of cultural differences which can give a totally different meaning nuance to the same word used in the West. For that I am glad to have come across a book that provides information beyond just definitions. I am sure it will be a handy reference book for anyone studying Korean.

It truly is a very creative approach to and an accurate interpretation of K-culture. If you have non-Korean friends with interest in the K-culture, this book will definitely help them understand the culture with real-life examples and clear explanations.

We all know that the best way to learn a new language is to make friends with those who speak the language. In case, you don't have Korean friends around you whom you can ask what the words mean that can be never found in the dictionary, this book is perfect for you. The cultural aspects this book touches are also very real and insightful for overall Korean culture.

The Kpop dictionary is probably one of the best dictionary available if you want to learn Korean slang words and phrases. This book is very easy to read and understand. I would absolutely recommend this book!!

A unique mix of Korean slang words and phrases that aren't found in a regular Korean dictionary. I wish there were more though, still highly recommended!
