Customer Reviews

Very nicely done and easy to find what I need quickly once I reviewed it a few times. Nicely laid out. I have several books, cd's etc. to learn from as I have recently moved to Panama and this is one that is very comprehensive. I learned more from using this than from the many of the other sources.

Excellent materia and easy to follow and understand. My young children (11 and 13) spent 6 weeks in Spain and this Spanish guide was easy for them to follow and learn and at the end of 4 weeks they both were writing and reading basic Spanish. Highly recommended.

Bought the entire series in Spanish by BarCharts to go along with the fun Fluenz Latin American Spanish Learning program (also recommend it). There are a number of them and all are great. They are all very good tools to use while learning or for quick 5 minute review sessions whilst anywhere. Rote learning along with conversational Spanish with native speakers is best. Plastic bonded is easy to keep clean. Durable for on the go travel. Love them for quick referencing when

needed, especially while writing in Spanish language for guest blog posts not written in your native tongue. Highly recommend these learning tools. Like any tools, unused they become useless. Use them, you can become proficient in the language you wish to learn. Use it or lose it and the same is held true for languages. Please pardon the same review for all the BarCharts. They are all great.

These are okay for a quick reference but I find them a bit confusing. And I would prefer, in hindsight, to have more cards of a smaller size which would be easier to carry around.

Very helpful! I keep it at my desk at work as I am in sales and find it helpful when trying to communicate with a Spanish speak customer.
